

NOTES FOR LEADERS

A balanced programme

One of your responsibilities as a Leader is to ensure that there is a balanced and varied programme for your Guides.

You also need to work with the girls to make sure that they take part in activities that cover all five zones (see *Guidance notes for leaders: Guide section*, order code **6056**) by doing unit activities, games and so on, in addition to Go For Its!.

Safety

Another responsibility is to ensure that the Guides are safe. The rules within the current edition of *The Guiding Manual* should be adhered to and, depending on their ages and abilities, you may need to supervise Guides on the following:

- Going outside the normal meeting place
- Inviting members of the public into the meeting place
- Knives and other sharp objects
- Hygiene, both personal and food
- Cooking and other appliances
- Allergies, skin sensitivity, what to do in the event of an allergic reaction.
