

# CAMP ON A PLATE!

Go outside as a Patrol and collect some natural objects. You might be able to pick up acorns, nutshells, twigs, leaves and pebbles. Then, using the things that you have collected and any craft materials you have, create your very own mini campsite. You might include tents, a fire for cooking, a washing area, flag pole, gadgets and people. Your camp could be traditional, very modern or even futuristic.

YOU WILL NEED

- ▲ A large paper plate each
- ▲ Natural objects such as fallen twigs and leaves
- ▲ Craft materials: scraps of paper or material, tissue paper, beads and so on
- ▲ Blu-tack
- ▲ Sticky tape

Display all the campsites together for the rest of the unit to see!
