

# COMMUNICATE... WITH EACH OTHER

## Publications

Design a publication for your unit, either on a computer or on paper if you don't have access to a computer. Here are some ideas:

- ✕ Tickets, a poster or a programme for a fund-raising event. Remember to include what the event is, where and when it will be held and what the cost will be for adults, children and concessions.
- ✕ A leaflet to give new Guides when they join your unit. Give information about your unit and about guiding in general, eg explain some guiding terms like Patrol, G file, Go For It! You could also include fun things to do in your local area.
- ✕ A unit newsletter – create a new one for your unit or produce the next edition of an existing one. Include some reports of activities you've done, a calendar of future events, jokes/car share plea/birthdays section.

## Design a computer

As a Patrol, have a look through some computer catalogues and magazines. Do most of the computers look similar? Why do you think they have been designed that way?

Design your ideal computer, either on paper or with a computer art program. Think about features like size, colour, shape, power source, keyboard, mouse, screen and printer. Once you have designed your computer, try making it using cardboard boxes, junk and scrap materials. Would you add anything else to make it easier or more fun to use?
