

Welcome to Girlguiding

New starter form to be completed by parents/carers of young external volunteers aged 13 years. Find out more about young external volunteers [on our website](#).

13-year-old young external volunteers

13-year-old young external volunteers inspire girls aged 4-14 while building leadership skills, having a brilliant time.

Why is this different to the starter form for the parents/carers of 14-17-year-old members?

Members aged 13 and under can't log into GO to update/access their own details. We use a different form to get the right contact details of their parent/carer. Once they're 14, their leader can help them login to update this themselves.

Parent/carer permission to take part in activities

This will need to be given by you until your young person turns 18 for activities outside of unit meeting times, adventurous activities, day trips and residential events. Please check with your young person for any paperwork. If you have questions or concerns about this, please speak to your leader.

What you should do to support your young person and the volunteers at the unit?

All of our units are run by volunteers who give their time to create an environment that empowers young members to be the best that they can be. The Girlguiding community treats everyone with respect and dignity and values the support that parents/carers can give to help to set positive examples. You can help and support your child and the volunteers at your unit by:

- Encouraging your young person to get involved.
- Checking with your young person to make sure that they have let the unit leader know in advance if they are unable to attend.
- Make sure that you tell your young person if you change your personal details so they can update them on the membership system (GO) and inform the unit leaders of any changes. This will ensure the young person's safety.
- Ask your young person about information and paperwork (such as consent forms) so that they can be returned promptly and payments can be made on time.
- Positively reinforcing our ethos of treating all people with respect and dignity.

Health information

To make sure your child is able to participate and enjoy a range of guiding opportunities during her membership, we ask that you complete the following health information. Any information that you give about a child's disabilities or health condition will be used to help volunteers make guiding more accessible for your child. We recommend that you speak to your unit leader about support and adjustments the unit can provide.

Please tell your leader if there is anything else happening in your child's life which will help our volunteers to support her and look after her safety.

Required information

Do you consider your child to be disabled or to have a health condition? This could include physical impairments, learning difficulties or disabilities, mental health difficulties, sensory impairments, or any other medical conditions including epilepsy, asthma and diabetes. If your child would benefit from adjustments in order to help her participate fully please also see our adjustment plans on our website .		<input type="checkbox"/> Yes <input type="checkbox"/> No
Disabilities, health conditions or medication		

Note: There will always be at least one person at every unit meeting, activity or event with a valid first aid qualification. If you have any questions or concerns about this, please speak to the unit leader. Please label any medication with your child's name and provide clear instructions for its use. If applicable, ensure that a spare, clearly labelled inhaler or adrenaline auto-injector is brought to the event to be held by the first aider.

Photo preferences – required

We sometimes take photos and/or videos during our activities. Please let us know your preference for the way in which we can use photos of your child. **Choose one option only.**

<input type="checkbox"/>	[a] 'Photos/videos can be shared and published and used for marketing – this means I am happy for photos, videos, storytelling and other visual and audio content of my child to be taken/collected, used for promotional and marketing purposes, published in public-facing media and shared within Girlguiding and with partners and local newspapers'.
<input type="checkbox"/>	[b] 'Photo/videos can be used for unit use only – this means I am happy for photos, videos, storytelling and other visual and audio content of my child to be taken/collected, used as a record of unit activities, not published in any public-facing media and not shared outside the unit'. This may include unit specific social media channels (that are closed to the public).
<input type="checkbox"/>	[c] 'Do not take photo/videos – this means I do not want photos, videos, storytelling and other visual and audio content featuring my child to be taken'.

Photo/video permissions differ for large scale events (where over 100 participants are present). Consent forms will state clearly if an event is large scale, and will request parents/carers to tell leaders if they don't wish photos/videos of their child to be taken at the event.

Communications

To deliver good quality guiding, local leaders will need to communicate with members or young member's parents/carers. We need to be able to tell you information about planned activities so that together we can participate in great local guiding. The unit leader may also need to contact you about any last minute changes to our plans. Please speak to your unit leader to find out more.
