My target

Challenge memories

Total

## Here's your fundraising totaliser!

Jot down your target at the top and break your target into milestones along the way. These don't have to be the same value, just checkpoints in your fundraising journey. Why not use a safety pin or design an icon to move up your totaliser to show how much closer you're getting to your target?

We've also included a space for you to jot down or add photos of your challenge memories along the way.

When you reach your target, remember to celebrate and thank everyone who donated.
