

My target:

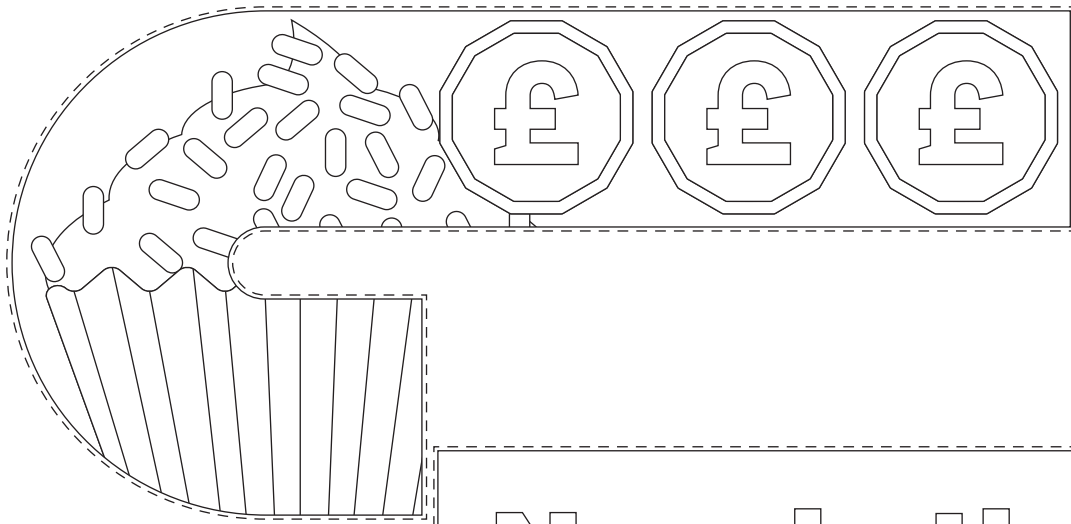

Start
Ready
steady
GO!

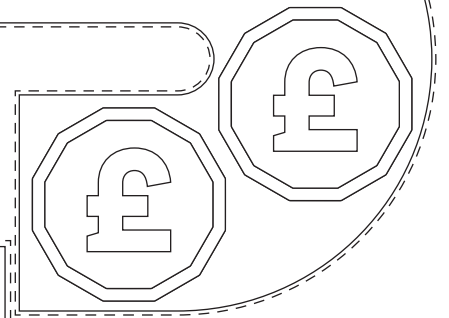

Here's your fundraising totaliser!

Jot down your target at the top. Split out your target however you'd like! We call these milestones – a place to mark where you are on your journey, and they don't have to be the same amount of money in each. Decorate your icon and move it along the road to show how much closer you're getting to your target. You can fill up your totaliser however you'd like. Colour, paint or decorate the sections on the next page and stick them onto totaliser to show where your fundraising is up to.

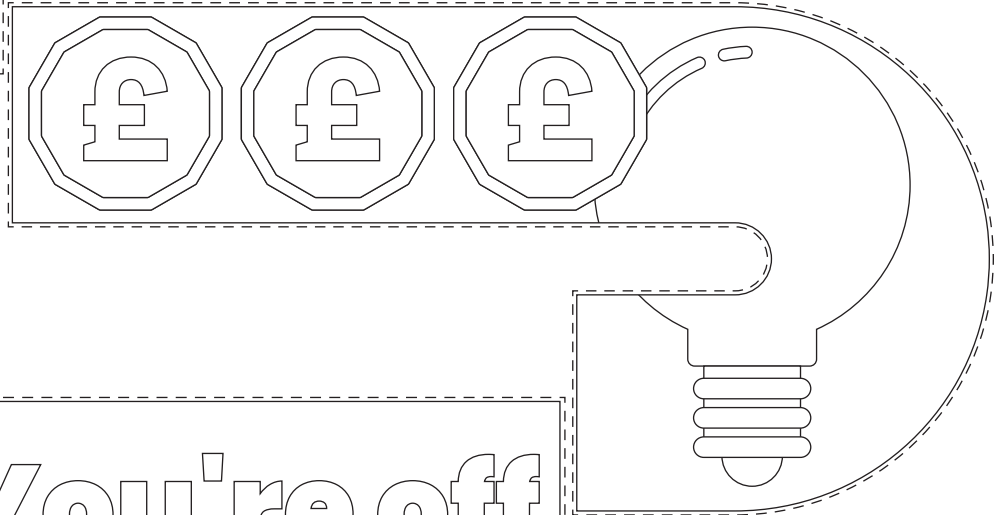

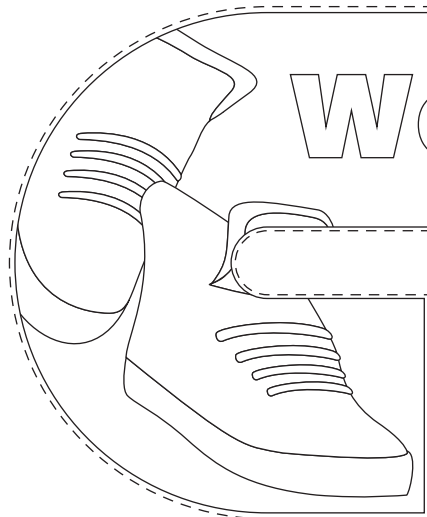

When you get to your target, remember to celebrate and thank everyone who donated!

Nearly there

Well done

You're off
